

DATASHEET

Duplex Jumper SC-ST, 50/125μ, OM4

Fiber jumper are well defined components in international standard of structured cabling ISO/IEC11801. Due to many different network protocols created in the last 25 years , also a wide range of connectors had been developed. Some of them are still important today: LC, SC, E2000®, MPO/MTP.

Fiber jumper(patchcord) are defined as shortest connection between passive interface and active deviceport, regarding structured cabling standard. Rating of performance, known as category, as well as performance of total transmission channel, known as link class, Similar descriptions for patchcords: Connection cable, drop cable, adapter cable, interconnecting cord, Jumper

Fibre type:	Multimode 50/125
Category:	OM4
Number of fibres:	2
Cable type:	Duplex
APC-version:	False
Anti-kink sleeve:	put-on
Cable Ø:	3.0 mm
Colour outer sheath:	erika-violett
Flame retardant:	According to EN 50265-2-1
Halogen free (according to EN 50267-2-3):	True
Type of connector connection 1:	SC-Duplex
Connector colour 1:	beige
Type of connector connection 2:	ST
Operating Temperature:	-20 - 75 °C
